

Inicio de Programa

```
graph TD; A([Inicio de Programa]) --> B[/pelotas , precio/]; B --> C[resultado = pelotas x precio]; C --> D[/resultado/]; D --> E([Fin de Programa]);
```

The flowchart consists of five blue shapes connected by vertical lines. The first shape is an oval labeled 'Inicio de Programa'. A vertical line connects it to a parallelogram labeled 'pelotas , precio'. Another vertical line connects this to a rectangle labeled 'resultado = pelotas x precio'. A third vertical line connects this to a trapezoid labeled 'resultado'. Finally, a vertical line connects this to an oval labeled 'Fin de Programa'.

pelotas , precio

resultado = pelotas x precio

resultado

Fin de Programa
